EVALUATION SYSTEM

Pre Primary Evaluation System

Evaluation practice can be arranged into three categories. Assessment for learning, assessment as learning and assessment of learning. The teacher will evaluate the students through Continuous and Comprehensive Evaluation (CCE) and on holistic development. Evaluation as learning is identified in literature as important in supporting children's self – efficacy and self-esteem. The testing can be done simultaneously while teaching and learning or separately.

Semester – I Assessment month – April - October 2023 followed by Report Sharing.

Semester – II Assessment month – October - March 2024 followed by Report Sharing.

PARENT TEACHER MEET

The PTM is a powerful force for the welfare of AIS and its students. It exists to encourage cooperation between teachers and parents by not only giving practical academic assistance but also at sporting, social and cultural events. It is also one of the useful channels of communication between the Principal, Parents and Teachers.

Parent teacher meets are organized after every Assessment and the child's progress is shared with the parents.
